

The Court recently approved Special Master Fleet's Summary of Interim Reports One through Five. See [Special Master Fleet's Summary of Interim Reports One through Five](#).

Special Master Fleet will continue to make individual damages award recommendations in subsequent reports filed under seal with the Court on a rolling basis. Judge Fleet further reports that his work has been substantially slowed by uncommunicative Class Members. If you are contacted by Judge Fleet, either by phone or by mail, please respond immediately in order to resolve the issue as soon as possible. Any delay in communicating with Special Master Fleet will delay the award process.

Once Judge Fleet has made award recommendations Class Counsel will request approval by Judge Rothschild. Once Judge Rothschild has approved of award recommendations, further disbursements will be made.

Class Counsel continues to work daily on this case in answering class members' questions, overseeing the awards' process, assisting Special Master Fleet when necessary, and monitoring the condition of the Ft. Lauderdale cemetery. If you have questions regarding the foregoing, please contact the Garden City Group, the court appointed class administrator. Please continue to check this website for further updates.
